EXTENDED DAY KINDERGARTEN @ KMS

Students aged 5 by October 15 are ready for our extended day program.

Typically, students enter extended day as a third year in the classroom. By this time, children are usually reading and have mastered more complex materials. They have the opportunity to consolidate their learning by reviewing materials and build confidence by teaching younger peers. Enrichment opportunities include Art, Music, and Whole Health where they enjoy special activities with their peer group to build community.
